

Seminole Nation of Oklahoma
Request for Bid
Location: Mekusukey Mission
12575 NS 3540 Seminole, OK 74868

Scope of Work

The Seminole Nation of Oklahoma is seeking a qualified company to assist it in drilling a 750 foot water test hole and provide analysis on an existing Indian Health Service well. The company will be expected to provide a cost estimate for the following:

Task 1 - Test Hole

- Drill and Sample 7 7/8-inch Test Hole (Samples for Sieve Analysis)
- Geophysical Logging
- Zone-Interval Sampling (Include Water Chemistry Analysis)
- Provide off-site disposal of drilling fluids or cuttings
- Provide well design recommendation based on results
 - Design should include depth, diameter, material, screen slot-size, gravel-gradation, and the water chemistry analysis.
- Provide a detailed report at the conclusion of drilling and analysis of test hole including estimated production capability

Task 2 – Analysis for existing IHS well

- Hourly rate for flow and drawdown testing
- Perform a TV survey
- 24-hour pump test
- Water chemistry analysis
